Built to Work Like Part of Your Team

Paper records slow your shop down the moment an aircraft enters the hangar. Crewchief MX eliminates that friction by bringing records, compliance, and clarity into one system so your technicians can spend less time in the books and more time maintaining aircraft.

- ✓ Digitized and organized aircraft history
- ✓ AI-modeling digitizes and scans records validated by certified experts
- ✓ Live search and filtering across service history
- ✓ Clear AD, SB and maintenance compliance status at a glance
- ✓ Automatic tracking of ADs and SBs ensure airworthiness
- ✓ Use AskCrewchief to get real-time answers about your aircraft.

Clear, Controlled Workflows

Crewchief MX replaces disconnected tools and manual tracking with a single, structured workflow built for MRO operations.

Centralize Shop Activity

- View aircraft status, required tasks, open discrepancies, and compliance requirements in one system.

Manage Work Orders Seamlessly

- Transition from inspection to disposition to sign-off without re-entering data or losing context. See what's in progress, what's waiting, and what's ready without chasing updates.

Compliant Log Entries

- Create compliant digital log entries and FAA 337s that are searchable, professional, and audit-ready.

Balance Workloads

- Assign and prioritize work based on real-time status, technician capacity, and aircraft readiness.

Why MROs Choose Crewchief?

With secure aircraft records, shops become the trusted partner that owners rely on long term, increasing retention. The result is a more efficient shop, stronger customer relationships, and a platform that supports growth without adding headcount.

- ✓ **Remove Bottlenecks**
Stop burning billable hours on intake. We reduce the research process for an annual inspection down to minutes.
- ✓ **Reduce Risk**
Significantly reduce your liability, protect your shop's reputation, and prevent record loss without moving a binder.
- ✓ **Full Control**
Replace fragmented systems with a single platform that manages work orders, inventory, and discrepancies directly.
- ✓ **Real-Time Visibility**
Eliminate the liability of physical logbooks. Connect OEMs, MROs, A&Ps, pilots and owners to real-time, accurate data and ensure transparency.

How It Works

1

Enroll Your Shop

Get access to the full Crewchief MX platform with a simple subscription for \$200/month or \$2,400/year.

2

Onboard Your Aircraft

Snap photos of your aircraft records. Our AI modeling handles the transcription and digitization, followed by verification from our team to ensure accuracy.

3

Manage & Optimize

Manage your workflow, from forecasting maintenance intervals and tracking discrepancies to executing work orders, ensuring your shop runs at peak efficiency.

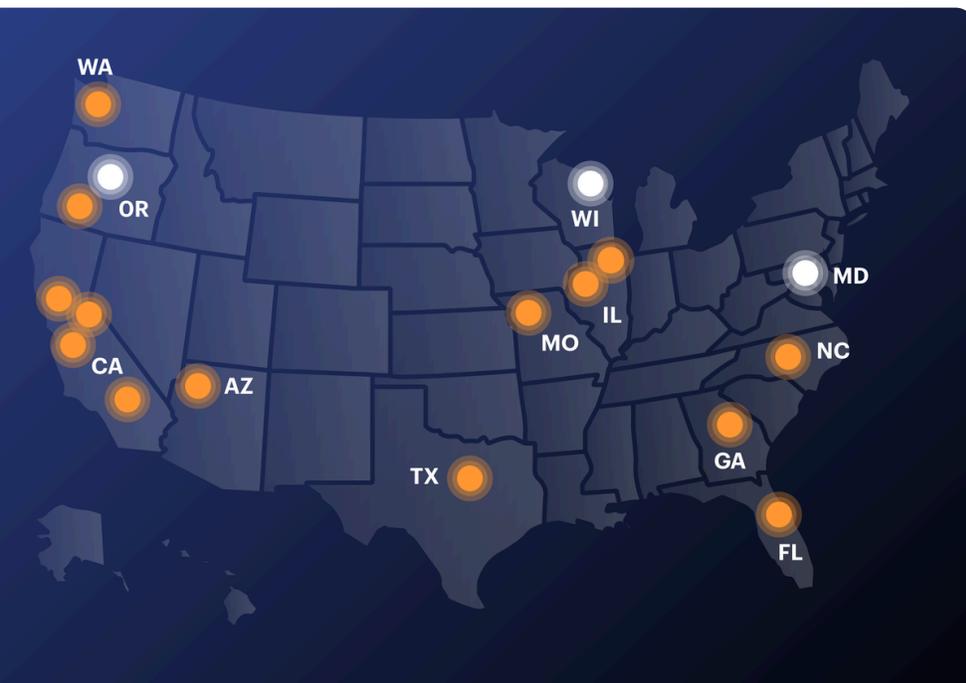

Ready to Get Started!

See how Crewchief MX helps MROs save time, reduce risk, and increase retention on every aircraft.

Exclusive to MX Subscribers

Become the Go-To Shop for Aircraft Owners

Ready to Expand Your Reach?

Crewchief Systems doesn't just streamline your shop floor. We bring work to your door.

By joining the Certified Affiliate Network (CAN), you position your shop as a trusted partner in a nationwide ecosystem, connecting you directly to active buyers and sellers.
